

PSYCHIATRY

Psychiatry medical billing can be tedious, time-consuming and labour-intensive. Providers must navigate key details such as the appropriate use of evaluation and management codes, how to bill for computer-administered or technician-based testing and state specific policy requirements.

This is where a trusted medical billing firm makes all the difference. At Billed Right, we partner with practicing psychiatrists to deliver accurate, quality and timely services, allowing you to stay focused on patient care.

We also provide support for ICD-10 coding specific to the psychiatry specialty.

WHAT WE SPECIALIZE IN

- Timely & aggressive appeals processes for denials & incorrect claims
- Quick turnaround time
- HIPAA-compliant service
- Improved collection ratio and productivity
- No initial costs or hidden fees
- Quarterly and annual performance reports
- Flexibility with using software
- Regular updates on coding compliance
- 30 to 40% savings
- 24x7 customer service on demand
- No yearly contracts

ACCURATE CODING SERVICES

Our AAPC certified coders are proficient in psychiatry coding and knowledgeable in applying correct modifiers to ensure clean claims and faster reimbursements. Common codes we manage include:

- 90833 – Psychotherapy, with patient and/or family performed with an E/M service
- 90792 – Diagnostic Assessment (with Medical Service)
- 90887 – Explanation of Findings
- 96116 – Neuropsychological Assessment (neuro behavioral status exam)

We stay updated on the changing medical codes to ensure your claims are accepted on the first submission and meet payer compliance.

OUR EFFICIENT MEDICAL BILLING SERVICES

We perform all the essential follow-ups for claims ranging from the first entry of the patient to the doctor's office to the submission of claims and appeal process.

- 1 Enrollment into the system – demographic information, insurance information
- 2 Verification – Insurance verification, authorizations
- 3 Coding
- 4 Billing and reconciling of accounts – charge entry, cash posting, reconciliation
- 5 Account receivable collections–insurance collection, patient collection, AR follow-up

WHY PARTNER WITH BILLED RIGHT?

At Billed Right, we have the expertise and resources to manage billing services for practices of all sizes, from individual practitioners to multi-specialty groups, physician networks and acute care facilities.

Our efficient medical billing process includes complete follow-through from enrolling patients into the system with accurate demographic and insurance details to verifying benefits and authorizations. We take complete care of charge entry, payment posting and account reconciliation, along with timely follow-ups on insurance and patient payments so you can focus on what's important – providing quality psychiatric care.
