

PULMONARY

Revenue Cycle Support Built for
Pulmonology Practices

Pulmonary medicine involves complex diagnostics, chronic care, and procedure-heavy services, from PFTs and bronchoscopies to sleep studies and ventilator management. With evolving payer rules and bundled reimbursement challenges, efficient billing is critical.

Billed Right partners with pulmonology practices to simplify revenue cycle operations and improve cash flow.

We don't believe in a one-size-fits-all approach. Our solutions are tailored to address your specific pain points, such as:

- ✓ **Clarifying bundled services and proper billing** for pulmonary procedures and diagnostic testing.
- ✓ **Identifying missing or misapplied modifiers** in multi-procedure claims like bronchoscopy with biopsy.
- ✓ **Supporting appeals with payer-specific documentation** to ensure appropriate reimbursement for respiratory services.
